NFNZ Accredited Fertility Educator Training Programme Guide

**Certificate and Diploma of Fertility Education
and Reproductive Health**

2022-2023

Introduction

Natural Fertility NZ (NFNZ) is a non-profit organisation, that trains and equips educators to teach evidenced based fertility awareness based methods to individuals and couples, in particular:

- The sympto-thermal method (STM)
- Advanced guidelines for STM
- The lactational amenorrhea method (LAM) & fertility while breastfeeding

Educators are also prepared to present Continuing Medical Education (CME) to GP's, Midwives and Nurses, and to present community education sessions.

NFNZ supports its Accredited Educators through continued access to senior educators, monthly educator online meetings for chart discussion, facebook group for general discussion, and a number of grants (the details of the grants are made available after the organisation has secured their funding for the year - usually in January).

The full programme is taught over 24 months, which is divided into a Certificate & Diploma. You will start by obtaining the Certificate in the 1st year, and then if you choose to do so, the Diploma in the second semester of the 2nd year. *The Diploma is not compulsory, and can be completed at any time when there is an intake (every 2nd year). Some educators choose to wait a couple of years to build up their experience first.*

Delivery of the NFNZ Programme for 2022 - 2023

Certificate	Semester 1, 2022 <ul style="list-style-type: none">- Online theory- Online Practicum month- Supervised practice	Semester 2, 2022 <ul style="list-style-type: none">- Online theory- Online Practicum month- Supervised practice
Diploma (optional)		Semester 2, 2023 <ul style="list-style-type: none">- Online theory- Online 2 day practicum

While this programme is not NZQA accredited (not eligible for a Studylink student loan), it is highly respected, with NFNZ Educators registered to provide CME sessions for GP's, Midwives and Nurses.

Upon successful completion of the Programme, you will be awarded the 'Certificate in Fertility Education and Reproductive Health' and offered membership to NZNZ. While a member, you will be recognised as a NFNZ Accredited Educator and can access the many benefits of membership. This will help you as you begin your Fertility education business or add this knowledge to your current businesses services.

Please read the rest of this document for further information regarding the application process, study requirements, important dates, and programme details. If you have any questions regarding this information, then please do not hesitate to contact Roshanne, at admin@naturalfertility.co.nz.

When you are ready to apply, please click this link for the application form:

Application Details

Requirements and Preferred Skills

- Preferred entry to those with a primary health qualification (degree) such as: nursing, medicine, midwifery, doctor; qualification in complementary health disciplines such as: homeopathy, naturopathy, medical herbalist.
- For those without a formal health qualification – experience in teaching and/or working in the community with community groups, women, schools.
- Experience in business or current clinical practice and/or a drive to market yourself and your services after you have completed the programme.
- Literacy and study skills to support independent learning are a must. You will need to be competent using email, word processing programs, online learning platforms and have easy access to a computer with internet access to course content and to complete assignments.

Personal Attributes and Expectations of NFNZ Educators

NFNZ Educators work with clients who may be dealing with grief and significant challenges such as infertility or miscarriage. NFNZ requires Educators to show empathy and professionalism and as such expect a very high standard of behaviour and decorum from student's. Educators must also foster an attitude of equality, diversity, and cultural safety - respecting the Treaty of Waitangi and Maori health, and all relevant legislation.

You will be required to behave in a manner that the health consumer, other students and teachers determine as being culturally safe, respectful and to demonstrate the ability to apply the principles of the Treaty of Waitangi/Te Tiriti O Waitangi to your supervised practice component - which will be a reflection of your future practice.

Certificate - 2022

Fees

The fee for the Certificate is \$4500.00, but we have scholarships available which will bring the fee down to 3500.00. This scholarship has made available by funding from the Public Trust. There are a few terms for this scholarship so please read the terms and conditions provided. Please read and sign the terms and conditions, provide photo ID, and pay the deposit to secure your place. The remainder is payable in full, 3 weeks prior to the programme commencing on the 31st of January 2022. If you would like to pay in installments, you can set up weekly/monthly payments to our account which we will apply to your invoice, these can start as soon as you have been invoiced. It is advised to start these as early as you can to reduce payment amounts needed each time.

Additional costs may include:

- Phone calls to your Course Facilitator and/or the National Clinical Supervisor
- Photocopying costs of assignments as we always recommend that you keep a copy
- Costs relating to the development of your own teaching resources.
- Costs relating to resits of assignments and assessments

Study hours & Contact time

You can expect to spend 10-20 hours per/week studying during each semester. It must be noted that this is an estimate depending on your study experience, you may need more or less time to complete the weekly theory and the assignments.

Semester 1, 2022		Semester 2, 2022	
Theory, Quizzes & Discussion (online)	100	Theory, Quizzes & Discussion (online)	100
Assignments x 2	20	Assignments x 2	20
Online Meetings x 3	4	Online Meetings x 2	4
Practicum Month	36	Practicum Month	36
Supervised Practice	10	Supervised Practice	10
Total Hours	170	Total Hours	170

Teaching Locations

The theory component of the course is delivered using an online learning platform, where you will be able to access learning material, quizzes, communicate with trainers, and hand in assignments. **All quizzes and assignments must be submitted by the due date. Quizzes/discussions are due weekly.**

Online Meetings will be held using an online meeting platform, attendance at these will enhance your learning - all students are expected to take part.

Our two 4 Day Intensive Practicums have now been moved online and will be spread over two 4 week blocks. Under no circumstances will any student be allowed to complete practicum weeks unless ALL assignments including any remedial work is completed, marked and passed.

The Supervised Practice component is completed after each practicum. It involves recording your appointments with a client, and submitting their charts, recordings and report for the Clinical Supervisor to Review.
